

“Defensive Driving Training- Refresher”:

ABOUT THE PROGRAMME

We take this opportunity to introduce ourselves as Trainers & Consultants in the field of Road safety. Road Accident has become the second most reason of death after HIV in the world and surprisingly in India; it is yet not taken as seriously as other countries.

With a view to reduce road accidents, save lives of people and save revenue of the country, we at MRSTC have decided to impart Defensive Driving Training to different categories of drivers like Two wheel riders, Auto-Rixa drivers, Private & Commercial LMV drivers, Heavy Commercial Drivers & Public Transport Vehicle Drivers through our specially designed training modules covering your specific needs.

The idea is to educate people about Important Road Signs & Markings, Daily Check points, Safety Rules of the Road, Managing Emergencies, Driving Skills for different road & weather conditions, Vehicle Maintenance etc. Positive attitude and decent behavior on the road are also hidden aspects of our training modules to make them more responsible when on road. Our training modules consist of subject related short films, photographs, stories, songs and group discussions to have maximum involvement by trainees. We deliver related literatures designed by us. We use a mixture of Gujarati, Hindi & English languages to make it easy to understand for the trainees of all categories. Theory exams and practical evaluations can also be included in the training. We have a team of trainers who have passion of teaching Road Safety.

We request you to kindly call us for any such requirements and road safety related issues. Details of Syllabus and charges can be sent to you after learning an exact requirement from your end like category of audience, no. of trainees, time and content of the program, need of practical evaluation etc

Major areas of activities:

1. Defensive driving training to commercial drivers
2. Decent driving training to public transport vehicle drivers
3. Designing/Improving Road Safety policy of the company
4. Road Safety Audit for internal plant roads & Route Risk Assessment
5. Improving “fleet safety” of company owned vehicles
6. Road Accident Investigation
7. Consultation on CSR by corporate on Road Safety
8. Trainer's Training for Driving School Instructors
9. Preparing teams of Traffic Marshalls from schools, colleges & society.
10. Preparing need based brochures, books, short stories, dramas and songs on road safety
11. Teacher's Training on Road Safety Education

We have trained drivers on defensive driving of different categories like two wheeler riders, LMV private and commercial drivers, Ambulance drivers, Government vehicle drivers, three wheeler drivers, Heavy passenger bus drivers, Public Transport drivers (BRTS), Trailer vehicle drivers etc.

We have conducted “Train The Trainers” program for Vodafone at Gujarat & Rajasthan circles and Essar Logistics Limited at Hazira-Surat.

We trained trainers of “TEAM Van” (Traffic Education & Awareness Mobile van) – a National Road Safety Award winning project by Transport Department of Gujarat. “Train The Trainers” program for Driving School Instructors and Owners at Gujarat in association with Transport Department of Gujarat.

We have trained more than 700 trainers at Gujarat in association with Traffic Police Department of Ahmedabad.

Trained Volunteers to spread road safety awareness in Gujarat & Rajasthan

We have also trained more than 500 trainers at Rajasthan in association with “Centre For Road Safety” - a division of SP University of Police Crime & Justice with a view to spread road safety among different types of road users.
