

TRAINING

Developing a strong safety culture as an integral part of the work culture and lifestyle in the people is a big challenge. Appropriate training is one of the several approaches to meet the challenge successfully.

PATEL DILIBHAI MOTIBHAI ORGANIZATION (PDMOO), whose mission is to create, develop and sustain awareness about safety, health and environment at the national level, has been conducting training courses on since its inception in 1918. What started off as a national initiative on March 4th, has become synonymous with safety training today in not only Government and public sectors but also in private companies.

TRAINING RESOURCES

Training being its core activity, PDMOO has been playing a pioneering role in this area at the State level for the last 02 years. In order to develop technical competence most of the officers of PDMOO are trained in India on safety, health and environment aspects. Besides, a large number of persons with rich experience in the industry are empanelled as experts. These experts also work as faculty in the training programmes.

IN-PLANT TRAINING PROGRAMME

PDMO provides services on developing and conducting need based safety training programmes at the organization premises. The programmes are targeted for Managers, Supervisors, Workers and also contractor's workers in separate or mixed batches of size 25-30.

This in plant trainings can for the following requirements:

- **Induction safety training for new batch**
- **Refresher safety training for plant personnel**
- **Awareness programmes for office buildings/hospitals/hotels etc**
- **Contract workers training at construction sites**

In the F.Y.2018 &19, PDMOO has conducted 128 days in plant training programmes at 75 locations in Gujarat.

The organisations who have availed PDMO services on In plant Training for the year 2019-20 [Click here](#)

The following are the salient topics for In plant training

1. **Accident Investigation and Analysis**
2. **Behavior Based Safety Management**
3. **BOCW Act & Rules**
4. **Construction Safety**
5. **Defensive Driving**
6. **Disaster Management**
7. **Electrical Safety**
8. **Emergency Preparedness**
9. **EOT crane safety**
10. **Ergonomic Safety**
11. **Fire Fighting for First Responders**
12. **Fire Prevention and protection**
13. **Fire Safety & Rescue Techniques**
14. **First-Aid**
15. **General Safety**
16. **Hazard Identification & Risk Assessment (HIRA)**
17. **Hazard Prediction for Zero Accident (KYT)**
18. **Hazards and Operatability Study(HAZOP)**
19. **Job Safety Analysis**

20. **Laboratory Safety**
21. **Material Handling Safety**
22. **Office Safety**
23. **Organizing and Motivating for Safety**
24. **Process Safety Management**
25. **Qualitative Risk Analysis**
26. **Quantitative Risk Assessment**
27. **Role of Safety Officers /Coordinators**
28. **Safety and Health in Construction Work**
29. **Safety Training**
30. **Safety Awareness at Workplace**
31. **Safety in Handling and Transportation of Petroleum Products**
32. **Safety in Scaffolding and Working at Heights**
33. **Statutory Requirement pertaining to Occupational Safety and Health**
34. **Stress Management at Workplace**

The training programme can be of any other topics related to safety, health and environment or a feasible combination of topics.

During the year 2019-20, most of the companies are conducted training programmes on –

1. **Safety in Scaffolding and Working at Heights**
2. **Electrical Safety & Fire Protection**
3. **Behaviour Based Safety**
4. **Laboratory Safety**
5. **Fire Safety and rescue techniques**
6. **Material Handling**
7. **Job Safety Analysis**

A newly launched 2-day exercise based in plant training programme on “Hazard Prediction for Zero Accident (KYT)” conducted by PDMO officers is mostly appreciated by the company.

PDMO has conducted 18 numbers of one day and 3 numbers of two days in plant training programmes on “Electrical Safety & Fire Protection for DISH Grant approved program & 6 numbers of one day in plant training programmes for GERTI Going Permanente and Contractual Workers” at GSECL campus, Gujarat.

Safety Training inquiry form

Safety Training inquiry form PDMO is carrying out Safety Trainings for industries and other institutions since last 2018. PDMO training offers a comprehensive guidance in improvement on health, safety and environmental issues for industries on viz. petrochemicals, chemicals, cement, power sectors, fertilizer, insecticide, pharmaceuticals, paper and also for engineering firms, construction sites, hotel, hospital, co-operative society buildings, schools, office premises, etc. Safety Training is carried out by experts in the respective fields who cover management system, facilities and activities of the organization on safety aspects assess the prevailing hazards, the level of prevention, protection and emergency management preparedness and subsequently prepare a recommendation to upgrade safety inputs to avert mishaps and limit consequences.

The assessment questionnaire is given below. Kindly furnish the information as per the questionnaire at the earliest. Based on the information received, our appropriate Techno-Commercial Offer for Safety Training will be submitted.

- 1. Contact Details of concerned officer (Mobile Number / Email Id and GST number)**
- 2. Brief description of the plant operations.**
- 3. Total area & built up area.**
- 4. Number of personnel employed Male and Females (Inclusive of contractor employees).**
- 5. Subject and class of participants**
- 6. List of raw material & product manufactured?**
- 7. How many departments are there in each unit and their names?**
- 8. Incoming Power Details including details of captive power.**
- 9. Details of Hazardous Chemicals Stored (including fuels) - Name and Quantity.**
- 10. Additional Information if any**
- 11. Detail address of plant & contact number.**
- 12. Nearest Railway Station with distance from plant.**
